## FIRST CONCERT OF SERIES

## Central Michigan Symphony To Perform Tuesday Evening

Tuesday evening will mark the opening of the First Annual Artist Course Series in the Joseph Stroh Auditorium, when the Central Michigan Symphony appears in concert at 8:00 p.m. Tickets for this concert and the three which will follow throughout the year are presently on sale and can be purchased at the Board of Education Offices, at Grayling High School or from any Grayling High School Band member. Other events which are to follow in the series include Mr. James Tipton, a noted poet and author, the Central Michigan Jazz Ensemble and the Adrian College Singers.

The Central Michigan Symphony Orchestra is under the direction of Dr. Paul Willwerth. They will open their program with the well-known "Leonore Overture No. 3" by Beethoven, complete with offstage trumpet calls. This will be followed by the "Prelude" to Wagner's opera, "Lohengrin." According to Wagner, this work is intended to describe a heavenly vision in which angels bear aloft the Holy Grail. The colorful "Pictures at an Exhibition" by Mussorgsky will comprise the second half of the concert. In many ways a virtuoso piece, the orchestra's technical and musical potential will be challenged as a result, and the audience can be guaranteed an intriguing experience.

Dr. Paul Willwerth, conductor of the Central Michigan Symphony came to Michigan in 1966 from the Boston area where he was chairman of the Department of Music at Eastern Nazarene College and trumpet with the Boston Symphony and the Boston "Pops" Orchestras. He was formerly solo-conductor with the United States Military Academy Band at West Point and has played with several major orchestras. Well known as a trumpet soloist, Grayling residents will remember his appearance last winter with the Grayling High School Band.

## Youth For Understanding

Would you like to help promote better understanding with other countries, and open a door to worldwide peace? The Youth for Understanding Committee is now interviewing families who will open their homes to a high school exchange student from South America for six months beginning in January of 1975.

Host families receive students as members of their own families and provide them with room and board. The students are responsible for their own clothing and expense money, are medically insured, and tuition and books are provided. Preferably, they are placed in homes with American teen-agers.

YFU, which sponsors the students to promote international good will, is approved by the U.S. State Department.

For more information, please contact your high school Guidance Office or: Mrs. Mahlon Riker, 348-9143; Mrs. Don Jansen, 348-5572 or Mrs. Carroll Wert, 340-4971.

## Bonamie, Hanson Named To M-HSC Dream Grid Squad

Two Grayling Vikings have been named to the Michigan-Huron Shores All Conference football team for the 1974 season. Cliff Bonamie, for the second year, has been voted onto the M.H.S.C. All League Team as a running back. A vote of all league coaches rated Bonamie as the leagues number one runner this year.

Bonamie moved into seventh place in the all time scoring spot in the league, his 110 career points in the M.H.S.C. is the highest achieved by a Viking player.

Mark Hanson was the only defensive player to receive placement and was selected as an end. Hanson and Ray Clawse of Rogers City were tied for second in the balloting and since both could not be on the first team, a re-vote was necessary and, true to form, Hanson ended up on the second team.

Other Vikings that just missed all-league honors but who were seriously mentioned were: Craig Hinkle, who led the league in touchdown receptions; Larry Baynam, who missed the second team center spot by one, of a possible ten, point vote; Neil Doty and Don Vollmer.

Out of the 44 Dream Team players, Peloskey had 15, Gaylord 12, Charlevoix 8, Cheboygan 4, Grayling 2, Boyne City 2, St. Ignace 1, and Rogers City 1.

## Bomb Primer Injures Boy

A 14-year-old Beaver Creek boy lost at least three fingers on his left hand Saturday when the primer from an old Army practice bomb exploded when he struck it with a hammer, according to Crawford County Sheriff's deputy who investigated the accident.

Kevin A. Marculewicz was taken to Grayling Mercy Hospital and then transferred to Munson Hospital in Traverse City for further treatment.

Sheriff's deputies said the boy and a friend were helping a neighbor clean out the garage of the home he had just bought on Gilbert Ave., in Beaver Creek Township, 6 miles south of Grayling, when they found two bombs, and proceeded to dismantle them, causing the accident.

BLUE DEVILS ROMP, 49-8

## Vikes Lose Final

The Grayford Blue Devils contained the Vikings' offense, and their Mr. Everything, Ken Ames, did just that as he ran for 240 yards, scored 2 TD's and kicked 5 extra points to lead the visitors to a 49-8 bombing of the Vikes' ship.

Cliff Bonamie, playing with a chest cold, finished out his high school competition with 84 yards in 25 carries, far below his this year's average of 160 yards per game.

Bonamie, a certain all-state candidate, if the down state coaches and writers are listening, set all new records in

versity action for Grayling.

He set a school record of 1364 yards rushing in a single season this year, and wound up with 2514 yards in 17 games in varsity competition. He carried the ball 409 times for a 6.01 average. His 156 points also surpassed the school record held by Dave Holmes (104) set in 1969.

The Blue Devils sabotaged the Vikings' ship before they

## Research of AuSable River Sponsored by Trout Unlimited

In an attempt to increase public knowledge of trout habitat, growth rates, and ecological effects of riverbank properties on the AuSable Main Stream, three different and distinct studies were carried out this past summer. These studies were sponsored and funded either wholly or in part by Trout Unlimited.

Phillip W. Devore studies the various types of hiding cover by 10-12 inch trout. This involved use of a water velocity meter and accessory recorder which was a \$4000 gift from Challenge Chapter of Trout Unlimited in Bloomfield Hills. Some of the work was done in the controlled-flow channels of the unused DNR hatchery on the East Branch. Other funds for this study were from the EPA training grant and research funds from MSU Agricultural Experiment Station. The findings are reported at length and include the interesting item that the best cover was close to the bottom of the stream and parallel to the direction of stream flow.

A \$5000 grant from the Michigan State Council of T.U. funded a study of the brown trout growth rates which study was designed by Dr. Ray White and was completed by Neil DeJong. Aided by Kirtland College students and by other volunteers in the area as

well as by Mr. Devore, they electrofished 4-mile sections of the AuSable, covering the trout water from Grayling almost to Mio Pond.

The trout caught were weighed, measured, and a sample of the scales was taken for later analysis. Then the fish was returned to the stream. The trout will be aged by counting scale rings and growth rates back-calculated according to distance between rings.

This study only measured the growth rate. It should provide the basis for possible further study to investigate the reasons for the growth rates.

Under a \$2000 contract with the Property Management Board of T.U., two graduates of MSU, Wayne Schmidt and Patrick Rusz, carried out an ecological reconnaissance of the Stranahan and Knight properties along the AuSable which properties have been deeded to Trout Unlimited for research purposes. As soon as this report is printed with maps, photos and tables, the Management Board of T.U. will set up a plan for the continued wilderness, public and educational use of these properties.

## County Voters

## Follow Trend

## Carlisle, Failing Named To Board of Commissioners

Crawford County followed most of the nation in the trend of replacing incumbents when two more members of the Board of Commissioners were defeated in the general election on Tuesday.

In District Four, incumbent Republican, Albert Westervelt was defeated by Kenneth Carlisle, (D), 98-63, while in District Five, voters gave the nod to Republican, Rolla Failing, 215 to 162 over incumbent Bernard Bourrie (D).

The only holdover on the board following the primary and general election is Fred Kauffman, representative of District Seven, who was the only candidate without competition in either election.

Sander M. Levin conceded to Governor William Milliken for the highest office in Michigan around 1:00 a.m. this morning. According to a newscast, Milliken is only one of ten Republican Governors to retain their office when we went to press.

In Grayling Township, incumbent Supervisor Bernard Fowler fought off the challenge of Carl Kellogg (D), by the slim margin of 490 to 434. Voters also retained incumbent Constable, Alfred Harland (D), over challenger Neil Rouse (R), 446-410.

In Lovells Township, Frederick Schably (D), defeated incumbent Supervisor, William Koerke (R), 85 to 69, while incumbent-Twp. Clerk, Evelyn Bates turned back the challenge of Ann Carolie Doby, 85 to 63.

Frederic Township voters gave their approval to Rodney Hinkle (D), for Constable over Edward Durga, 200 to 50, with write-in candidate, Charles Haas garnering 37 votes.

Crawford County voters gave a 2 to 1 edge to Rep. Ralph Ostling over challenger James Miller. The electorate also favored incumbents Philip Ruppe in the 11th Congressional District and State Senator Robert Davis, 37th District.

Daniel Walsh, Circuit Judge for Crawford County, received an overwhelming edge here in his quest for one of the Judges of the Court of Appeals, 3rd District, new term.

## Comedy

(Continued from page 1)  
Work on the play started in early September on Sept. 19th. The cast was selected and work on the stage was begun before October. Stage construction and other physical aspects of the play this year are being handled by a class taught by Howard Taylor, Technical Theater.

This is the tenth year of Drama Club presentations and the second year the play is to be held in the Joseph Stripe Auditorium.

## Production

(Continued from page 1)  
excellent equipment. "Because we are able to present the play at the high school, we have the honor of working with one of the best facilities in the area," Mr. Swaffler stated.

With the help of Dorothy Sumner's stagecraft (technical theatre) class from Roscommon High School, the technical crew for "Play It Again, Sam" is moving quickly into place. Co-directors Maggie DeSantis and Tom Tarrant are very pleased with the cooperation they are receiving. The expenses of this production are exceeding other MSP presentations. Perhaps representing that effort, the players feel that "Play It Again, Sam" will be, with no doubt, their best production yet.

## Football

(Continued from page 1)  
could set sail, and ran up a 42-8 halftime score, to wrap-up second place in the M-HSC with a 6-1 mark behind Petoskey who finished with a perfect 7-0.

Mark Hanson, Viking full-back, rambled 50 yards for the Vikings' only TD, and Tom Haskel ran the 2-point conversion, for Grayling's only bright spot for the evening.

Four fumbles and three pass interceptions helped pave the way to Grayling's easy victory, and hand the Vikings their fifth league defeat, against 2 wins.

"It's hard to convince people you have a good ball club when you're 4-5 for the season, but, this year's squad played over a lot of bad breaks and errors, and never gave up," coach Mike Wieland remarked Monday.

"In this final game with Grayling, after trailing 42-8 at halftime, they put it together and played a real tough team to a 8-0 second half, and it's good to see a group of athletes that never quit trying their best," Wieland added.

In other league action, Petoskey claimed the grid crown with a 48-0 win over Boyne City, Charlevoix defeated Cheboygan, 27-12, and St. Ignace stopped Rogers City, 14-7.

All fall sports awards, boys and girls, will be given out at a date in December to be announced later.

Thoughts now turn to the hardcourt and the madness of the round ball for the Vikings.

### VA Income Questionnaires

More than a million persons who will receive income questionnaires with Veteran Administration pension checks for November must return them by January 1 instead of the customary January 15 deadline.

VA officials explained the new deadline was set to relieve the annual logjam in preparation of January checks when pensioners returned the questionnaires near or after the former January 15 deadline.

Pensioners are urged to complete and return the questionnaires promptly.

Under the law, VA mails questionnaires to veterans on non-service-connected pension rolls, widows of veterans receiving pensions based on the non-service-connected death of a husband, and certain parents who receive monthly checks because of the service-connected death of a veteran or serviceman.

The VA noted most pensioners must file questionnaires each year. Exceptions include pensioners 72 years old or over who have been on pension rolls for two consecutive years, though they must report income changes when they occur.

Some beneficiaries who normally are exempt will receive questionnaires this year because of cost of living increases in their annuities.

The agency pointed out, prompt return of questionnaires by the new January 1 deadline will avoid delay in next year's checks. Checks cannot be sent until the questionnaire is received and processed.

### Energy Drain

Demand for electricity in the U.S. is doubling every ten years. This country, with 6% of the world's population, uses 36% of the world's energy, and our demand is doubling every 15-20 years.

### ALL ABOUT OUR NATURE CENTER

By: Lee Crowell  
Something exciting is going on at the Elementary School!! We have a nature center!! We have 13 animals, 4 rabbits, 2 raccoons, 6 ground squirrels and 1 crown sparrow. They all eat the same thing. Carrots, cabbage and pellets.

They all have a house. The rabbits dig big holes and the raccoons sleep in them. They have big stumps in it. Hay too. There are branches off a big tree they cut down. No one is allowed in it, only people that bring food in. It is inside our court. We might get some more animals. We have piles of dirt in it. Some trees also.

IN THE NATURE CENTER  
By: Deanna Hubbard  
We have four rabbits, two raccoons, and six ground squirrels. We feed them peanuts, lettuce, cabbage, carrots and corn. We also have a crown sparrow. We feed the crown sparrow bird seed. There are old stumps, old logs, branches and one pine tree. There are lots of holes, one box, one little house and a green plant box. It is by the halls and by the office. Mac helps people feed the animals and one bird feeder.

# Edna Brown

The exuberant Edna Brown, the swing-in'est gal in town, is billed as a vocalist and comedienne. They say she's a little bit of Sophie Tucker, Rusty Warren and Satchmo. But the truth is she's just not like anyone else but Edna Brown.

She's tall, dark, and gal-some, and how she belts out your favorite songs.

She's the idol of the mod mob with her renditions of the latest juke tunes. Dads get misty when she does Sophie's, "Some of These Days" and her Jolson medley. Real jazz addicts dig her Basin Street and St. Louis Blues. She rocks 'em with Mame.

As if all of that wasn't enough, she's a very funny gal.

GRAYLING, MICHIGAN — THURSDAY, NOVEMBER 7, 1974.

### Yankee Trader Needed!

Admittedly, relationships between nations are far different than between individual people; and, for the most part, that is a good thing. If people acted like nations toward each other, the population on almost every city block would be constantly thinned by neighbors shooting each other up because someone disliked the way someone else failed to return the lawnmower they borrowed or had cold pale eyes that didn't look very friendly. Also, people generally treat their friends better than their enemies, however, nation's do not seem to observe that rule of human behavior.

For instance, the United States taxpayer is expected to provide tens of millions of dollars for the Export-Import Bank to loan the Soviet Union for the construction of industrial facilities—as, for example, a fertilizer manufacturing complex. The problem is that the loans are made at six percent, while top American corporations have to pay double that for the money they need. The idea is that this will increase trade between the two countries. It is certainly a proper and constructive goal. But somewhere along the line, if the U.S. is planning to trade with the USSR, it will have to do so on a realistic basis.

In recalling the great wheat deal of 1972, the editor of the Albemarle, North Carolina, News and Press comments: "Dealing with Russia has already cost Americans billions of dollars. If we continue to deal with them, it is time to drive some decent bargains, from the American standpoint." It is impossible to buy friends, or nation's.

### Pack 993 News

"Our Pack" is going strong again this year. We had thirty-four new boys register and with our carry-overs, we have a total of sixty-three boys.

Loren Goodale, our Webelos Leader, along with some dads, will be taking our Webelos to their yearly wilderness park outing. Jack Kesby, from Fred-eric Pack 978, will be taking his Webelos on the same trip. It makes for a weekend of fun, food, frolic with very little sleep!

It's cake bake time again in our Pack. If you remember, this is when father and son bake the cake and mom cleans up the kitchen. The winning cake in each den are auctioned off and the money goes to help run the Pack.

Remember, the public is invited! We hope to have Vern Gerber, a real honest to goodness auctioneer, come all the way from Mio to help us. So bring everybody!

Here are the Rules:

1. All cakes made from scratch, (no box).
2. Bottom layer made from a recipe for a nine inch layer cake.
3. Make the cake as high as you wish (You can make a cupcake ten feet tall if you want).
4. Decorate and style as you please. (Use imagination).
5. Cakes will be judged by Mrs. Ruth Fenton, Mrs. Earl Johnson and Mrs. Barry Ingles.
6. Two of the best cakes from each den will be auctioned off. That's the only prize.
7. All money goes for re-registering the Pack at charter time and to operate the Pack.

Something to think about: This I believe. A hundred years from now it will not matter what my bank account was, the sort of house I lived in, or the kind of car I drove. But the world may be different, because I was important in the life of a boy.

## THE BIBLE SPEAKS

From Calvary Baptist Church

### The Faith of Science

Scientists often try to separate what they believe from what is taught in the Bible. They claim they are dealing with facts and the Bible is dealing with faith. On this basis they refuse to be challenged in their beliefs by the Bible. While this assumption appears true at first glance, in reality even the scientist relies on faith for all his knowledge.

All science rests upon the presupposition of the 'uniformity of nature.' In other words, a scientist must assume that nature is and will continue uniform. He must assume gravity will remain the same. He believes chemical changes will take place today and tomorrow in the same pattern he has observed in previous experiments. Without faith in uniformity of nature revealed in the Bible, there could be no basis for scientific study. Yet uniformity of nature is an assumption which no scientist can prove. He accepts this by faith.

All science rests upon the presupposition of 'causation.' All scientists know that cause and effect cannot be proven. Since cause and effect are so essential to the scientific method, it could not function without them. The only true basis for faith in causation is found in the Bible. The Bible teaches causation. God created all things which exist, first cause. Man is made responsible for the consequences of his sins, causation. Lust causes sin and sin causes death. (James 1:14-16) The scientist could run a million experiments and never prove causation. He accepts causation by faith.

All science rests upon the presupposition of 'human rationality.' Each scientist cannot

rerun all historical experiments. He must trust the rationality of past scientists who made reports of their work. He must assume that their experiments were conducted under the same logic and reason which scientists possess today. In science, a scientist could not rest upon a universal rationality of human beings. They could not depend upon the work of thousands of scientists from the past or even their present fellow workmen. The Bible gives science a basis for such assumptions. God created Adam and Eve in his image and all men are decended by procreation from this created couple. The scientist must accept human rationality by faith.

All science rests upon the presupposition of a 'value System' within nature. A scientist must assume his fellow scientist is truthful in his experiments and in his reporting. Science could not advance if one scientist could not rely upon the integrity of other scientists. The only sure hope for continued integrity among scientists is an acceptance of the moral teachings of the Bible. Modern situational ethics do threaten to destroy science. Modern scientists who defend naturalistic evolution as more than mere human theory are examples of where science can lead without the Bible. Behaviorism as advocated by social scientists is another such example. The scientist must accept a value system in science by faith.

All thinking is basically presuppositional. Even the scientist must live and work by faith. The Bible does not weaken true science, but on the contrary, it gives science a solid foundation upon which to rest.

## Bits O' Talk

by Fay Bovee

Michael Brady returned to London, England Saturday, after spending the past month with his mother, Mrs. John Brady, and other relatives. Mike is chief geologist with the Gulf Oil Company in London. Jack and Sally Tobin of Toledo, Ohio were also guests recently at the Brady home.

Mrs. Jessie Smock spent the weekend in Mt. Pleasant with her brother, Mr. and Mrs. Don Reynolds. He has been ill.

Don Sherwin of Port Richey, Fla., was in Grayling last week on Tuesday and Wednesday combining both business and pleasure. He visited the Earl Longworths and also, Mrs. Les Welch. He was formerly associated with Bear Archery, leaving here about 7 years ago.

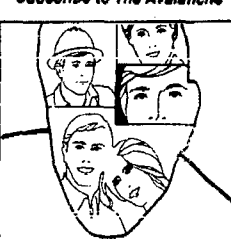

Mr. and Mrs. Larry Walsh and family of New Boston, Mi., spent the weekend as guests of Mr. and Mrs. Mike Branch and family. Mrs. Branch's sister and husband, Mr. and Mrs. Thomas LaFranboise, of Trenton, stayed at Higgins Lake over the weekend. Both couples came to be here for the housewarming.

Gregory Betts, son of Mr. and Mrs. Dennis Betts, first birthday fell on Saturday, November 2, and to celebrate the occasion his parents invited friends for a birthday party complete with a cake. Guests were Mr. and Mrs. Mike Smith and Jennifer, Mr. and Mrs. Joe Wakely, and Mr. and Mrs. Mike Fleming. His aunt, Luann Graham called from Stevensville to wish him happy birthday.

Troy Nicholas, of East Detroit spent the weekend visiting his son and family, Mr. and Mrs. Dale Nicholas, and children.

**Family Fun  
Night Success**

The first annual Family Fun Night sponsored by the Grayling Middle School on Tuesday evening, October 29, can only be described as a whopping success.

To all of you wonderful people who baked, who helped in many ways, who stood in the rain to eat spaghetti, and to those of you who cooked and served spaghetti, we can only say thank you for being the most wonderful parents and friends that any school could have.

An unbelievable 600 plus dinners were served. It is estimated that over 1000 people attended the event, taking part in the cake walk, spook house, pony rides, maze, and trying their luck at all of the booths.

Each of the 5th and 6th grade classes were in charge of one booth with the 7th and 8th graders helping out, too.

The money raised from this project will go toward the expenses for the annual 6th grade trip to Greenfield Village in the spring.

Thought to be poisonous, to-matoes were not eaten in the United States until about 1825, although they had been an Italian staple food since the 1500's.

The Young People of the Grayling Free Methodist Church are conducting special services this week with Rev. Donald Cleveland of Winona Lake, Indiana. The services will start on Thursday at 7 p.m. and each evening until Sunday.

## Flanigan-McIsaac Vows Spoken

A Nuptial Mass was celebrated at St. Mary's Catholic Church on October 5th by Father Thomas Neis to unite in marriage Mary Jo Flanigan and Daniel McIsaac, both of Grayling. Parents of the couple are Mr. and Mrs. Patrick Flanigan and Mr. and Mrs. Irving McIsaac, all of Grayling.

Maid of honor was the bride's sister, Molly Flanigan. The bride's other attendants were Marie McIsaac, sister of the groom, and Maureen and Susan Flanigan, sisters of the bride. Pat McIsaac served as his brother's best man. Other attendants of the groom were Bill Weideman, Bob Miller and Marc Harland.

A reception followed at the Officer's Club at Camp Grayling after which the newlyweds left on a honeymoon trip to Northern Michigan and visited the bride's sister and brother near Denver, Colorado enroute to their home in Big Springs, Texas where Dan is stationed in the Air Force.

A rehearsal dinner was hosted by the groom's parents for the parents and wedding party at the Holiday Inn.

## Young Vikes Win Championship

## Blue Devils Spook JV's On Halloween With 29-6 Win

The Grayling Junior Varsity football team finished their season with an overall 8-1 record after losing the final game to Gaylord, 29-6, at the winners field. Gaylord finished with a league mark of 5-2, runner-up to the champion Vikings, with a 6-1 record.

The young Blue Devils stunned Grayling with three first half touchdowns by speedster Del Dowker and led 23-0 at halftime. The young Vikes were mistake prone and failed to play their normal, inspiring brand of football in the first half.

Being behind for the first time all season, Grayling did some rebuilding and in the third quarter repeatedly sustained offensive drives deep into Gaylord territory, only to lose the ball on turnovers. Three scoring threats were stymied when the Blue Devils picked off Grayling passes, the first case interceptions off a Viking JV quarterback this season. Another drive came to an end at the two yard line on a Gaylord fumble recovery. However, early in the fourth quarter hard running Ed Ferguson scored from the three yard line to culminate a 98 yard scoring drive.

The Viking defense stiffened in the 2nd half, led by John Slater and Bill Dean, who was injured in the 3rd quarter and

finished a fine season on the sidelines.

Coach Chuck Mires stated he was satisfied with the Viking's determined second half effort as the team maintained their poise despite the bad breaks and hardships with injuries. For the contest, Ferguson gained 97 yards in 12 carries and Grant Byce picked up 77 yards in 22 carries.

Grayling can be proud of this team's efforts in winning a championship in a tough league after going only 0-5 as freshmen the previous year. This season they outscored their opponents 256 to 81 and as stated in the Bay City Times last week, "it looks like Grayling could be a future outstate football power." They've got their coaches votes!

## How does Welby do it?

In Michigan, the lawyers are fighting the doctors over money. If you'd like to help hold their coats, go to the end of the line which already stretches from Detroit to St. Ignace.

To hear the doctors tell it, the trouble started when Michigan got no-fault auto insurance. It is no longer necessary for courts to decide which driver ran the red light and which family will lose how much income because of contagious whiplash. This left a lot of bump-shop lawyers with nothing to do. So they started suing doctors for malpractice.

Apparently Perry Mason has had considerable success proving Dr. Welby amputated the foot when the patient really needed a triple A shoe. Juries have been awarding whopping damages and the price of malpractice insurance has doctors sobbing all over their stock portfolios.

500 doctors (which equals 20,000 examination rooms, the doctor will be in in a minute) formed the Physicians Crisis Committee. They have asked the state Supreme Court to limit the contingency fees that lawyers can charge clients in malpractice suits.

The limit would mean, for instance, that a lawyer could make only \$31,000 instead of \$75,000 on a \$150,000 case. And this includes overtime (for a lawyer, overtime is the time spent preparing a case and the time spent in court. Regular time is the time spent entertaining ambulance drivers and teaching clients how to swallow surgical sponges).

Naturally, the lawyers are not taking this medical harassment with their briefs down. Sheldon Miller, vice president of the Michigan Trial Lawyers' Assoc., said: "The doctors who have been committing malpractice are blaming lawyers for suing them. If the doctors want to set our fees, we would like the same right to set theirs."

to set theirs."

Yeah. Maybe Perry Mason could discover how Marcus Welby does it. And then the lawyers could ask the Supreme Court to require all doctors to use the Welby system.

Welby and his assistant get along on just 1 patient a week. They don't even have a drugstore in their lobby. Yet they enjoy a fine lifestyle, with a nice home, plus offices, well-fed secretary and a motorcycle for chasing patients up mountains to give them free shots.

Near my home there is a clinic containing about a dozen doctors. They just enlarged their parking lot to the size of 6 football fields. Their lobby looks like Dollar Day in Macy's basement. If you show up on time for a Tuesday appointment you might see your doctor by Thursday afternoon if it happens to be his week to work. No patient can leave without buying medicine from the clinic's friendly pharmacists who have the only key to the exit.

This place is so busy they sometimes don't have time to answer the phone. My wife let it ring for 20 minutes one day, just to see how mad she could get (in case of emergency, write a letter).

What I want to know is how come these doctors must schedule 50 patients each an hour to make a living while Welby gets along handsomely on 50 a year (and a lot of them are returns).

Go get 'em lawyers.

Go get 'em doctors.

It's a battle any fair-minded consumer has to enjoy. Until the first of the month, anyway. That's when we'll be billed \$70 an hour for the professional services that rubbed off on us while we were holding their coats.

And there'll be an extra charge to cover contingencies and consultants.

## Tips on aging, advice for wives among potpourri

Time once more for one of our infrequent strolls, barefoot through the potpourri.

### Mellow Mike

Does Mike mellow? Well, it helps... or at least it was one of the contributing factors in the development of Mike Wallace, a graduate of the University of Michigan and a few years ago one of the real younger curmudgeons of television.

Wallace, co-editor of the CBS "60 Minutes" program, recently reflected on whether he is getting mellow with age.

"I suppose what has happened is that I have moved away from dogma.

"I confess that for 20 years or so I was a kind of captive of a doctrinaire liberal position which stemmed from my Boston upbringing amidst a family of Roosevelt Democrats.

"Experience simply changed me. And a certain disillusionment in what the liberals have wrought in the last quarter-century."

### Advice for Wives

As long as Mr. Wallace brought up the subject of Roosevelt Democrats, let us turn for a moment to the matriarch of Roosevelt Democrats—Eleanor Roosevelt herself—for a bit of advice.

How does a woman cope with being married to a politician, she was once asked. And her advice for political wives is interesting:

"If your husband is in politics, try to do the following:

"Always be on time. Never make any personal engagements because you will probably be forced to cancel at the last moment.

"When in a group, do as little talking as possible, if your husband is present.

"Remember to lean back in a parade so people can see your husband. Don't get too fat to ride three on the front seat."

Pretty sound advice, it seems to me. And in these days when women

increasingly seem to be entering the candidate role, it might be sound advice for political husbands, too.

### Where's Paradise?

Florida, for the second consecutive year, leads the nation in attracting new families. More than two families move into Florida for every one that leaves.

New York and North Dakota share the lead for having the most outbound family migrations.

After Florida, the most attractive states are Arizona, Vermont and Washington, according to Allied Van Lines, which checked its moving van figures.

How goes the old nursery rhyme? Some like it hot, some like it cold? How's that again?

What's the total debt owned in this country? How about the figure \$2,200,000,000,000.

If I got all the digits in the right place, that's supposed to come out to two trillion, two-hundred billion dollars. And that's a lot of debt.

U.S. Rep. H.R. Gross of Iowa, who has made a career of bird-dogging and nit-picking on government spending as it wheels through the congressional process, came up with these figures.

Gross—a former newspaperman, incidentally—is winding up a 25-year career in Congress; he is not running for re-election this year.

Gross estimates the combined total of public and private debt in the United States at between \$2 trillion \$200 billion and \$2 trillion \$400 billion.

"We are the most debt-ridden country in the world," Gross says.

"Our federal debt alone is more than the combined governmental debts of the rest of the world.

"What a paradox: Here is the most developed country in the world in debt up to its ears."

No further comment needed, Mr. Gross.

## ABWA News

The October 14th meeting of the ABWA was held at the Grayling House with 29 members and 5 guests attending. Vice president Elaine Harland called the meeting to order. Everyone enjoyed a wonderful ham dinner with all the trimmings. The room was set up just lovely, in fact we are going back next month for our birthday party.

Vocational speaker for the evening was Jeni Hindmarsh. Jeni is an R.N. at Mercy Hospital, and was just promoted to inservice instructor. This means she is responsible for the instruction that all aids and orderlies receive. I think she even has some home work to do preparing classes and such. She likes her new position very much.

Our guest speaker wasn't really a speaker at all, but a Wig Style show by Marlene's Beauty Shop. Several local gals modeled all different styles and colors for us, even green and purple. Everyone has a great idea with the holidays coming up on how to cheat on your hair-do, buy a wig.

Roberia Wright's team was the winning team in the attendance contest. Elaine Harland, Marilyn Longworth, Marie Akers and Tanya Peltro made up the members. All of them received a lovely gold ABWA key chain for a prize. Good going gals.

Marie Akers read the correspondence for the month and has some very nice trips to Florida if anyone can go. We will receive a big discount as ABWA members. If you want more information on these trips, call Marie.

We have two members of ABWA that will be serving on the Grayling Area Festivals Inc. These are Vice Chairman, Elaine Harland and on the board of directors, representing the Masonic, Elsie Jensen.

We received a letter from Mr. Taylor of the Grayling AuSable Schools asking for a representative from our organization to be on the Program Planning Committee at the High School. Carla Roskosky volunteered with Joann Hall being the alternate if Carla can't make it.

Remember the bulletin, call all your news to Carol Sheggrud. She's doing a great job each month, but needs our help for more information.

President Jacquelyn Ruddy, presented Cathy Bloomquist a charm for being Boss Night chairman at our September meeting.

Lois Morningstar went to a lot of work and sent out cards with the bulletin to everyone and took a vote which turned out in favor to change our Office election from February to October to have new officers taking over on our new years. November is our Anniversary month and now this will correspond.

President Ruddy asked that all past chairmen make up a set of guide rules that they followed in the past year to pass on to future chairmen as a sort of outline to follow. This will be a big help for future gals next year.

Phyllis Sauter of Marshall Motel was initiated into American Business Women's Association with Lois Morningstar being her sponsor. Welcome to ABWA, Phyllis.

Ways and Means held a silent auction on Halloween centerpiece that were donated by, Lois Morningstar, Carla Roskosky, Joyce Bourrie, Joann Hall and Tanya Peltro. \$22.25 was made for the Scholarship Fund. Everyone enjoyed this so much that it will be repeated with a Holiday theme next month for the November meeting and in December, everyone will bring something they have made to auction off.

Our next big project will be a Holiday Style Show at the Shoppenagon Hotel on the 21st of November. This will have ladies as well as men's and children's fashions. We are going to have three stores represented, so be sure and get your tickets early for this one. It should be great. I'll keep everyone posted as to the progress we are making.

Our meeting for November will be held at the Grayling House on the 19th at 6:30 p.m. This will be our 5th birthday. Let's all try and make it a special party.

## Chamber Mailing

The Grayling Regional Chamber of Commerce made mailings this week to over 100 Snowmobile Clubs in southern Michigan...also to the state of Ohio and Indiana.

The mailing consisted of a letter inviting the snowmobile clubs to visit Grayling and Crawford County this coming winter...also enclosed was our new 1974-75 brochure "Grayling is Pleasure Country."

Copies of the mailing list of the snowmobile clubs are available at the Chamber office, and can be had "free of charge" by Chamber members who want to use this list for individual mailing purposes.

## Jack Pine's Stump

When this appears, thank God the mini-elections will be over, and we will all be delivered from the advertising and radio and TV commercials of the last few days. Most of them, in my opinion, are a bunch of lies anyway. Maybe I feel that way because in my earlier, and more stupid days, I used to help write the damned things. In fact, I think I even went to Confession over some of the crap I wrote - and I should have. But be that as it may, it's all over now, and I would guess that any incumbent, be it Republican or Democrat, has been "flung" out of office, whether he, or she, deserved it or not. And the Hell of the whole thing is that we will lose some really fine people and elect some Professional Idiots - and, dear friends, there are a bunch of them running for public office.

-JP-

Last week I read, with considerable astonishment, the Fitzgerald column in the Avalanche. It's called "If It Fits," and it is generally one of the best columns written in Michigan. But he was off base when he got to be real nasty about those who carry guns and hunt. Like one of those Hollywood-types who are against hunting for the simple reason they know nothing about it. I have always felt that Fitzgerald had more smarts than that. He's obviously been brain-washed by the Egg-heads - those who are educated beyond their intelligence. He, being Catholic (I don't know about now), ought to go to one of the Confessions I attend. In fact all columnists, Catholic or not, ought to attend

Confession after they write their columns.

-JP-

You know, talking of Confession (which is supposed to get you into a State of Grace and protect you from Eternal Hell and Damnation), Editor Whitey Madsen and Production Manager Leroy Papendick, (Neither Catholic) had a close scrape last Wednesday. This paper, written, composed and set in Grayling, is printed in Mt. Pleasant. Whitey and Leroy leave about four in the morning to accomplish this task. But you're lucky to have last week's paper. Apparently there is a new stretch of blacktop on I-75 around Houghton Lake and when it is wet it is a bit worse than treacherous. Anyway it was very wet early Wednesday morning and the car, loaded with papers, started to fishtail (whatever that may mean), and ended up in the ditch. Actually, they were both lucky to survive. Not even the papers were damaged, which is very good, otherwise you wouldn't have been able to read Jack Pine. Reading Jack Pine is like going to the bathroom: it's something you just have to do. In fact there's not really an awful lot of difference. Anyway, I am happy that Whitey and Leroy survived the accident and that the wrecker got them out so that we could have our paper. (I just read that someone was killed in the same area a day or so ago when a car slid off the road during some rain. Watch it; that's a dangerous stretch).

I've got lots more to write about, but since I'm in a sorta silly mood today, I guess all I'll add is.....

JACK PINE

## Easter Seal

[Continued from page 1]

County Easter Seal Society is pretty proud of the awards and we want to thank you, the contributors and the senior citizens who made and sold the lily corsages. The senior citizens really worked hard for Easter Seals this year.

The awards are on display at the Center. The local Easter Seal Society have their loan closet at Ausagra Acres and have wheelchairs, both adults and childrens, walkers, canes, crutches, commodes, hospital bed, porta-lift and various miscellaneous items to loan to you, the residents of Crawford County, without charge. We also send children to camp and assist with transportation for the handicapped. All we ask in return is that you remember us at Easter time in our annual campaign. That's our only way to raise money to purchase equipment and the cost of a wheelchair is \$279.00.

Aren't you proud of Crawford County awards. Justice Swainson told the audience that this certainly spoke well of the services provided by the local society. Call us if you have a need, we want to help you. Your local committee is:

As he was looking out the window on Saturday, a partridge came flying across the river directly into their window. It suffered a broken neck and Marian reports that they had a delicious Saturday night partridge dinner.

Almost 100 people dropped in on the Mike Branches in their new home Saturday for a surprise house-warming. A gift of money was presented to them and a sumptuous lunch was served. Their new home is close to the Lake Margrethe end of the channel in Harbor Beach subdivision at McIntyre's Landing.

Mr. and Mrs. Ronald Johnston and Mr. and Mrs. Robert Holzman spent an eight-day vacation in Hawaii.

Mr. and Mrs. Melvin Nunn, and Mr. and Mrs. Bob McLachlan, spent the weekend of Oct. 18-20 in Syracuse, N. Y. visiting Bob's parents, Rev. and Mrs. A. D. McLachlan.

# Fitzpatrick-Stancil Speak Vows

A seven o'clock candlelight ceremony at Michelson Memorial United Methodist Church on October 19th united in marriage Grace Elizabeth Fitzpatrick and Phillip Justin Stancil. Grace is the daughter of Mrs. Warren Fitzpatrick of Grayling and the late Mr. Fitzpatrick. Phillip is the son of Mr. and Mrs. Thomas Stancil of Grayling.

Rev. R. C. Puffer performed the ceremony before some 130 guests. Arnold Stancil and Ms. Anemarie Stancil, brother and sister of the groom, presented the musical selections, "Never My Love" and "One Alone."

Brian Fitzpatrick, brother of the bride, gave his sister in marriage. She wore a full length gown of white crepe with a wide ruffle at the hemline and lace trim around the high neckline and sleeves. She wore a full length veil and carried a bouquet of peach colored mums with white button mums and baby's breath.

Mrs. Janice (Trudgeon) Gates was matron of honor and bridesmaids were Mrs. Pat Wilson and Miss Jane Fitzpatrick, sisters of the bride. Their gowns were of shrimp colored knit styled similar to the bride's gown. Flower girl was Ramona Stancil, niece of the groom. Her dress was also shrimp colored but with short puffed sleeves. All the bride's attendants carried bouquets of shrimp colored mums, white button mums, and baby's breath.

The groom's attendants included his brother, George Stancil, Joe Thompson and Dave McClain. Jeff Hubbard was the ringbearer. A reception was held following the ceremony in the Viking Room of Chief Shoppenagons.

Hotel. Crepe paper, wedding bells and assorted color fruit centerpieces were the decorations.

Following a week's honeymoon trip to Fort Lauderdale, Florida, the newlyweds are making their home at 801 Michigan Avenue.

Mrs. Fitzpatrick chose a peach colored sleeveless dress for her daughter's wedding and Mrs. Stancil, mother of the groom, chose an off white sleeveless dress. Both had corsages of fall colored flowers.

The bride is a 1974 graduate of Grayling High School and is presently employed at the Court House. The groom is a 1969 graduate of Grayling High School and is a partner in Dad's Sporting Goods Store.

Out of town guests attended from Ohio, Alpena, Saginaw, Detroit, Cheboygan, Reese and Bay City.

## your week ahead by DR. A.W. DAMIS

Forecast Period: November 10 to November 16

**ARIES**  
Mar. 21 - Apr. 19  
Most members of your sign will acquire knowledge that is far afield from your present job, task or project. What is more, you'll probe into strange territories.

**TAURUS**  
Apr. 20 - May 20  
This week's events take on an unusual twist. According to your chart, a decision must be made between the wants of a person older and a person younger than yourself.

**GEMINI**  
May 21 - June 20  
You are entering a period when time and effort put into the past—will pay off. Also, you might regain an item given up as being lost.

**MOONCHILD**  
June 21 - July 22  
Planetary configurations spell out a gossip's paradise. Guard your words, you'll contact a backbiting "friend." Don't take sides in a feud that exists among your associates.

**LEO**  
July 23 - Aug. 22  
Remember, the more light in our eyes, the blinder we become. Meaning? Review your present relationship with the opposite sex. You're prone to misreading words and gestures.

**VIRGO**  
Aug. 23 - Sept. 22  
Mutual understanding, seems to be this week's keyword. Your chart indicates the formation of a partnership, in one form or another.

**LIBRA**  
Sept. 23 - Oct. 22  
Look out Libra! Suddenly, you'll notice that there has been changes, big changes . . . in your surroundings. Try to face things as they really are . . . especially, with the opposite sex.

**SCORPIO**  
Oct. 23 - Nov. 21  
For most members of your sign, Xmas, in one way or another, will arrive a little earlier. You'll take a trip down memory lane.

**SAGITTARIUS**  
Nov. 22 - Dec. 21  
Good grooming, and a good first impression, plays a major role in this week's events. Stand by for a new face to arrive on stage.

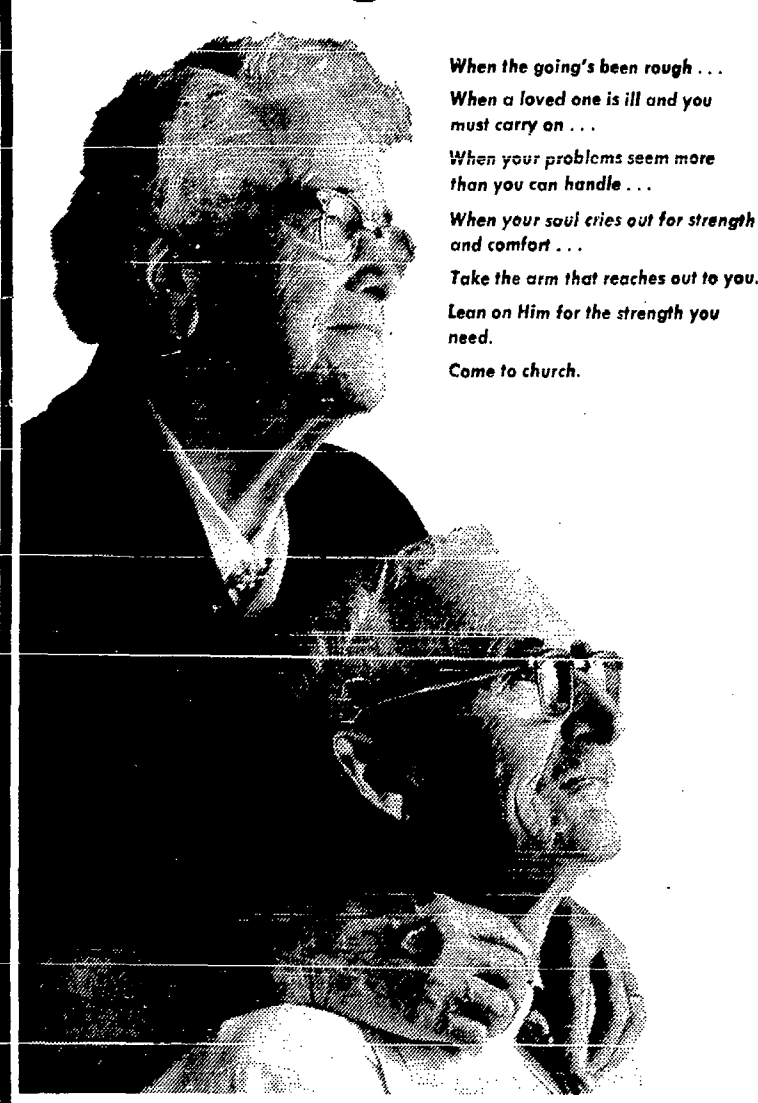

**CAPRICORN**  
Dec. 22 - Jan. 19  
Too many irons on the fire, will plague members of your sign. Try to meet problems on a "one to one" basis. And, don't worry about making "brownie points."

**AQUARIUS**  
Jan. 20 - Feb. 18  
Someone close by seems to think that the grass is greener, elsewhere. You might receive a few hints about changing your residence, job, task or project.

**PISCES**  
Feb. 19 - Mar. 20  
Remember, it's patience that makes the big difference between the spider and the fly. Meaning? Forget the "lecture" you've prepared for the opposite sex.

**PERSONALITY PROFILE**  
For your Sun Sign Analysis, send the day, month, year and place of birth, plus \$1.00 for postage and handling to Dr. Andrew W. Damis, P. O. Box 12766, St. Petersburg, Florida 33733.

# Attend The Church Of Your Choice The Strength You Need

When the going's been rough . . .  
When a loved one is ill and you must carry on . . .  
When your problems seem more than you can handle . . .  
When your soul cries out for strength and comfort . . .  
Take the arm that reaches out to you.  
Lean on Him for the strength you need.  
Come to church.
